Export Specifications

Introduction

The Bureau of Special Education Data Collection and Reporting System, managed by the Pennsylvania State Data Center, Penn State Harrisburg, collects student data in a specified format for the generation of federal and state reports. Pennsylvania Intermediate Units supply the individual student records and the required aggregate tables specified in this Resource Guide. Appendix D details the format of the data export files for submission to Penn State.

Sign off and validation of data – December 1 count

The Intermediate Units will ensure at the time of data submission that the export files that have been sent to the Pennsylvania State Data Center are true and accurate. The Intermediate Units will provide PSU with a count of the number of children contained in the export file. This can be incorporated as part of the message sent with the export file. **Once all IU files are accepted as correct, PSU will run the duplicate check program and send each IU a list of their possible duplicates for correction. Once all duplicates are resolved, PSU will send the following reports to each IU for verification:** Verify 1 by IU (children age 2-21 with disabilities receiving Special Education), Verify 1 by SD (children age 2-21 with disabilities receiving Special Education), Verify 2 Section 1 (Home Districts by eligible exceptionality - school age only), and Verify 2 Section 2 (Home Districts by eligible exceptionality - school age only). Upon review of the data, a sign-off will be required from all intermediate units. The IU Director will need to sign the final sign-off.

Sign off and validation of data – Revised December 1 count (July submission)

The Intermediate Units will ensure at the time of data submission that the student database file and the aggregate tables that have been sent to the Pennsylvania State Data Center are true and accurate. The Intermediate Units will provide PSU with a count of the number of children contained in the student database file including the number of additions, deletions and the number of children who exited. This can be incorporated as part of the message sent with the export file. **Once all IU files are accepted as correct, PSU will run the duplicate check program and send each IU a list of their possible duplicates for correction. Once all duplicates are resolved, PSU will send the following reports to each IU for verification:** Verify 1 by IU (children age 2-21 with disabilities receiving Special Education), Verify 1 by SD (children age 2-21 with disabilities receiving Special Education), Verify 2 Section 1 (Home Districts by eligible exceptionality - school age only), and Verify 2 Section 2 (Home Districts by eligible exceptionality - school age only). Upon review of the data, a sign-off will be required from all intermediate units. The IU Director will need to sign the final sign-off.

Duplicate resolution

Intermediate units are responsible for resolving duplicate student records within their IU before submitting child count export files to PSU. After receiving export files from all IUs, PSU will identify possible duplicate student records across IUs and will send back a list of these students to relevant IUs via email. The email with the list of possible duplicate student records across IUs will contain instructions and a time frame for resolving the duplicates. Intermediate units will determine if the child should be included in their file. **After all duplicates across IUs have been resolved, PSU will send verify reports to each of the IUs. Upon review of the data, a sign-off will be required from all IUs. The IU Director will need to sign the final sign-off.**

Corrections and updates of data during reporting phase

PSU will notify any Intermediate Units of data that needs to be corrected. The entire export file will be sent back to the IU for corrections to be made. If after submission of data to the PSU and before the deadline for submitting data, an IU may submit a corrected or updated version of their database.

Confidentiality

The PSU team assures that the information received from the IUs will be kept confidential.

IU data responsibilities

The intermediate units will be responsible for the accuracy of the data that is sent to PSU. PSU will check for duplicates across Intermediate Units and for missing data. If there is missing data, PSU will send the file back to the IU for corrections.

Adhoc Reports

Adhoc reports may be requested of PSU by the Department of Education, Bureau of Special Education. All requests for reports must be submitted through BSE. PSU will complete the reports in a timely manner and send them to BSE. The reports will be in either Excel or Access format.

Timeline

The intermediate units shall follow the timeline in Appendix B of the Resource Guide. (Reminder: December 1 count deadline is **January 6, 2006**. The revised count database and the aggregate tables are due on **July 10, 2006**.)

The Pennsylvania State Data Center will accept preliminary files until **December 19, 2005**. **The PSU encourages Intermediate Units to send files in December so that all errors will be corrected by the final file deadline of January 6, 2006.**

Export Specifications - Details

The specifications include information for submission of the individual records and the aggregate tables that need to be submitted to PSU by the intermediate units. In addition, each Intermediate Unit is required to send monthly preschool aggregate data. The data in the file is based on information starting **July 1, 2005**. It is sent to PSU based on data from **July 1, 2005** to the end of the current month. The database file is due every month on the 5th of the month for the time period ending on the last day of the previous month. For example, the September file would be due Oct 5th and contain data for July through September 30. The June file would be due July 5th and contain data for July 1, 2005 through June 30, 2006.

The export files are to be sent to Pennsylvania State Data Center. They may be sent either via email to **penndata@psu.edu** or mailed to:

Penn Data 2005
 Pennsylvania State Data Center
 Penn State Harrisburg
 777 West Harrisburg Pike
 Middletown, PA 17057

This appendix is to be used in conjunction with the rest of the **Penn Data 2005 Resource Guide**, which details the data variables, data tables, timeline and data dictionary.

General Formatting Information (for all export files – student database and Aggregate Tables)

All data export files must be in standard ASCII comma-separated variable (CSV) format, sometimes called “comma delimited text.” The data files shall consist of rows of integer data separated by commas. For the student database, data Item 20, Related Services/Supplementary... for which multiple responses are allowed, a semi-colon (;) will separate the data variable within the data item. There must be no blank rows in the file; each line of the file will be treated as a row of data. For each blank data value make sure there is a comma to indicate a move to the next data value. There must be a total of **29 commas** for each row of data. Each line must be terminated by a carriage return and line feed combination. Files shall be named as indicated in this document, and must be in an MS-DOS compatible file format.

A sample of the student database data format is shown below for a fictional file called SAMPLE.TXT.

123456789,Smith,John,A,01011993,,01,01,,101000000,JohnDoeElementary,,21,1,02,,,,,19,03,01,,Black,01;02;04;06,,

This file will contain a row of data for each student. The row contains **30** values, each separated by a comma (for a total of **29 commas** per row). If there is not a value, a comma will indicate a value of ‘blank’. Be sure to include leading zeros. Data should be formatted as MMDDYYYY.

A sample of the aggregate table (**Table**) data format is shown below for a fictional file called SAMPLE2.TXT:

0,1,2,3,4,5,6,7
2,4,6,7,8,5,6,10
3,4,5,6,3,5,6,6

For this file, there are three rows of data and each row contains 8 values.

Transmission of Files

Intermediate Units must submit the files to the system using one of two methods:

1. Electronic mail

Intermediate Units may email the files to the system administrator (**penndata@psu.edu**). The files must be sent to this address as electronic attachments to the email message, not in the body of the message. The files must be encoded using Internet standard MIME format (not Bin Hex or UUEncoded). Files should be named according to the format indicated in this document and zipped into a single file with the naming convention IU**_Date.zip, where “**” is equal to the IU number and “Date” is equal to the current date in MMDDYYYY format (i.e., 02012003). Files that are not formatted in accordance with this specification will be returned to the sender for correction. The sender must include their name, address, telephone number and email address with all correspondence.

2. Floppy Disk or CD-Rom

Intermediate Units may place the files on a floppy disk or CD-Rom and mail the disk to the system administrator (at the address listed above). The disk formatting must be MS-DOS compatible (if using a Macintosh, please write the files to a floppy disk using hardware/software that creates an MS-DOS compatible disk). Files should be named according to the format indicated in this document. The Intermediate Unit must mail the disk at a minimum of 5 days prior to the due date of the file.

File Formats

The following section contains the formats and names for the student database and the preschool database. **Once final specifications are available for the aggregate tables, PSU will send to each IU and place on the web the documentations for the tables.**

Data Assumptions

1. All students will be counted by their home district.
2. APS students will be included unless otherwise noted.
3. Wards of State will be counted as a “Home District” in each IU.

Student Database

The student database contains one record for each student who had a valid IEP on **December 1, 2005**. This includes all students in the Early Intervention and School Age programs. Each child will be counted in accordance to the specifications listed in the Resource Guide. Each record will include exactly **30** data items with each data item separated by a comma (total **29 commas** per line). For data **Item 20**, Related Services/Supplementary Aids and Services, for which multiple resources are allowed, a semi-colon (;) will separate the data variables within the data item. Each record (or row) in the file represents a unique student. The last date to submit the initial count file to PSU via export file is **January 6, 2006**. The revised count file must be submitted to the PSU via export file by **July 10, 2006**.

The PSU encourages Intermediate Units to send test files in early December 2005 to help alleviate errors in the final submission.
