Determination of Severity of Primary Exceptionality

The Table 12A is designed to assess the relationship of the proportion of students with severe disabilities in a school district's special education classes as compared to the total number of students in the school district. For the purposes of this comparison, students with severe disabilities for a school district includes students with severe disabilities, and whose parent or guardian resides in that school district, whether these students are enrolled in school district or intermediate unit operated classes.

The severity of a student's primary disability was determined by the student's exceptionality combined with the location of intervention. The total number of severe students for an exceptionality are the sum of the number of students for the exceptionality for the location of intervention as defined in the following table:

Exceptionality	-----LOCATION OF INTERVENTION-----											Altern	Altern	Instrc		Approv

Exceptions to the above assessment are as follows:

- Mental Retardation (MR): No. of "Severe" Students = [Total Public Enrollment] x (0.00174)
 No. of "Mld" Students = (Total for MR) - (No. of "Severe" Students)
- Speech Impaired (SI): No. of "Severe" Students = (Total for "Full Time" Regular SI students) + (Total for "Full Time" Non-Regular SI students)
 No. of "Mld" Students = (Total for SI students) - (No. of "Severe" SI students)

Students whose primary exceptionality were identified as Mentally Gifted or Developmentally Delayed were considered to be mildly exceptional.
