INTRODUCTION TO THE PennData STATISTICAL SUMMARY

The tables included in this publication present individual school district, intermediate unit, and state summaries for many of the required data items in PennData. Unless specified otherwise, the effective date of these reports is December 1, 1992, the mandated date of the federal child count reports upon which federal funding is based.

PennData OVERVIEW

The Special Education Management Information System, known as PennData, provides the Pennsylvania Department of Education (PDE) with a primary resource of information pertaining to students receiving special education and related services in Pennsylvania. This resource is in the form of an electronic database consisting of 59 required fields and an additional 35 optional fields.

PURPOSE

- Provide current, accurate, non-duplicated information needed for state-level management
- Provide the ability to generate currently-required and ad hoc summary reports of students served state-wide
- Provide IUs and their constituent districts with a comprehensive data management system for local uses

In order to assure that the state-wide database has current information, each transaction (add, change or delete) occurring at the district or IU level is written to a journal file for regular uploading to the state-wide database.

PROCESS OVERVIEW

The base for collection and entry of information for this system is the Intermediate Unit. Each of the 29 intermediate units has been equipped with a Hewlett-Packard 3000 minicomputer for maintaining the database of required information for each student served in its region. A master database, located on another HP-3000 at IU 16 in Lewisburg, is fed by the 29 regional IU databases. This master database is accessed directly by PDE in Harrisburg.

1. Student information is collected at the local level.
2. This data is submitted via forms or on-line entry to the IU's regional PennData database.

3. Additions, changes and deletions are written to a journal file on the local IU's computer.

4. PennData dials all 29 IUs and uploads these journal files.

5. Journal file information is used to update the state-wide database.

6. Program edits are run to assure that updates contain required fields and are not redundant records.

SOFTWARE OVERVIEW

The PennData software, which runs on the Hewlett-Packard 3000 minicomputer, has been developed (and is maintained) by the Instructional Support System of Pennsylvania (ISSP) according to data specifications provided by PDE.

Besides the many pre-written programs for reports available with the system, the user can initiate requests for records meeting few or many criteria and then report those records in a previously-defined format or in a new user-defined format. This ad hoc report capability frees the user from dependence on programmers for access to local data.

GLOSSARY

Assignment. The class grouping in which a student receives the program of special education and related services, as determined by the IEP team. The definitions shown here and elsewhere in the glossary are from Special Education Standards, Chapter 342, (unless noted otherwise) and have been in effect since July 1, 1990.

(1) **Academic support**

(I) **Gifted support class.** A class for exceptional students identified as mentally gifted.

(II) **Learning support class.** A class for exceptional students whose primary identified need is academic learning.

(2) **Life skills support class.** A class for exceptional students where the class is focused primarily on the needs of students for independent living.

(3) **Emotional support class.** A class for exceptional students whose primary identified need is for emotional support.

(4) **Sensory support**

(I) **Deaf or hearing impaired support class.** A class for exceptional students who are deaf or hearing impaired.

(II) **Blind or visually impaired support class.** A class for exceptional students who are blind or visually impaired.

(5) **Speech and language support class.** A class for exceptional students who are speech and language impaired.

(6) **Physical support class.** A class for exceptional students where the special education program is modified primarily to meet the needs of the physically disabled student.

(7) **Autistic support class.** A class for exceptional students who are autistic.

(8) **Multiple Disabilities support class.** A class for exceptional students who have multiple disabilities.

Exceptionality. After a multidisciplinary evaluation (MDE) has been completed, the IEP team determines if a student meets one or more of the exceptionalities listed below.

Autism/pervasive developmental disorder--A developmental disability characterized by qualitative distortions in the development of cognitive, language, social or motor skills. Determination of autism/pervasive developmental disorder shall include a full assessment and comprehensive report of diagnosis by a physician qualified to render a diagnosis and by a public school psychologist specifying the nature and degree of the disorder. Eligibility for special education services and programs for a student may not be limited solely because of the failure of a neurological examination by a physician to identify the child as having autism. Symptoms are typically manifested before 3 years of age, are not usual for any stage of child development and shall include two or more of the following:

(i) Impairment in reciprocal social interaction.

(ii) Impairment in communication and imaginative activity including verbal and nonverbal skills.

(iii) Markedly restricted repertoire of activities and interests, often involving resistance to change and motor or verbal stereotypes.

(iv) Abnormal or inconsistent responses to sensory stimuli in one or more of the following areas: sight, hearing, touch, pain, balance, smell, taste, posture and motor behavior.

Blindness or visual impairment --A visual impairment which adversely affects the educational performance of the person. Determination of visual impairment shall include a full assessment and comprehensive report by an eye specialist specifying the nature and degree of the impairment.

Deafness or hearing impairment --A hearing loss which interferes with the development of the communication process and results in failure to achieve educational potential. Determination of the hearing impairment shall include a report by an audiologist or otologist, or both, specifying the nature and degree of the impairment.

Developmental delay --

(i) This term is limited to early intervention services and programs under §§342.51-341.56 (relating to early intervention).

(ii) A child is considered to have a developmental delay when one of the following exists:

(A) The child's score, on a developmental assessment device, on an assessment instrument which yields a score in months, indicates that the child is delayed by 25% of the child's chronological age in one or more developmental areas: cognitive, language/speech, physical, social/emotional, and self-help, and by reason thereof needs early intervention services as defined in this chapter, Chapter 14 (relating to special education) and the Early Intervention Services System Act (11 P.S.§§ 875-101--875-503).

(B) The child is delayed in one or more of the following developmental areas: cognitive, language/speech, physical, social/emotional, and self-help, as documented by test performance of 1.5 standard deviations below the mean on standardized tests, and by reason thereof needs early intervention services as defined in this chapter, Chapter 14 and the Early Intervention Services System Act.

(iii) Determination of developmental shall specify the nature and degree of the delay and shall include a full assessment and comprehensive report by one or more of the following: a certified public school psychologist, speech correctionist, a pediatrician or a psychiatrist, and shall specify the nature and degree of the delay.

Mental retardation--Impaired mental development which adversely affects the educational performance of a person. The term includes a person who exhibits significantly impaired adaptive behavior in learning, maturation, or social adjustment as a result of subaverage intellectual functioning. The term does not include persons with IQ scores of 80. Determination of mental retardation shall include a full assessment and comprehensive report by a public school psychologist certified by the Department specifying the nature of the impairment and the level of functioning.

Mentally gifted--Outstanding intellectual and creative ability the development of which requires special services and programs not ordinarily provided in the regular education program. This term includes a person who has an IQ of 130 or higher and when multiple criteria as set forth in Department Guidelines indicate gifted ability. Determination of gifted ability will not be based on IQ score alone. A person with an IQ score lower than 130 may be admitted to gifted programs when other educational criteria in the profile of the person strongly indicate gifted ability. Determination of mentally gifted shall include a full assessment and comprehensive report by a public school psychologist specifying the nature and degree of the ability.

Multiple disabilities--Concomitant impairments, such as mental retardation and a physical disability, the combination of which results in needs which require extraordinary service delivery. The term does not include students who are "deaf-blind".

Neurological impairment (traumatic brain injury)--An injury to the brain, as identified by a neurological examination, resulting in behavior and learning disorders, or both. Persons whose behavior and learning disorders are primarily the result of visual, hearing or motor handicaps, mental retardation, emotional factors or environmental disadvantage are not neurologically impaired. The term does not include minimal brain dysfunction (see specific learning disability). Determination of neurological impairment shall include a neurological report from a physician and a psychological report from a certified public school psychologist and shall specify the nature and degree of the impairment. The evaluation process shall adhere to §14.25 (relating to evaluations).

Other health impairments--Conditions in which a person exhibits limited strength, vitality or alertness, due to chronic or acute health problems, including a heart condition, spina bifida, tuberculosis, rheumatic fever, nephritis, asthma, sickle-cell anemia, hemophilia, epilepsy, environmental illness, such as lead poisoning, leukemia or diabetes, which condition adversely affects a child's educational performance. Determination of other health impairment shall include reports from a physician and a certified public school psychologist and shall specify the nature and degree of the impairment.

Physical disability--A functional limitation which affects one or more of the following: physical mobility, speech or other forms of nonvocal communication, writing, arm and hand movement, eye and head movement, or any of the precursor developmental steps which lead up to full attainment of these skills necessary for success in education. Determination of physical disability shall include reports from a physician and a public school psychologist, shall specify the nature and degree of the impairment and, when appropriate, the student's ability to profit from assistive technology.

Serious emotional disturbance--A condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree which condition adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; a tendency to develop physical symptoms or fears associated with personal or school problems. The term does not include students who are socially maladjusted, unless it is determined that they are also seriously emotionally disturbed. A student may not be determined to have a serious emotional disturbance for disciplinary reasons alone. Determination of serious emotional disturbance shall include a full assessment and comprehensive report by a certified public school psychologist and may include the diagnosis of a licensed psychiatrist.

Specific learning disability--

(i) A chronic condition of presumed neurological origin which selectively interferes with the development, integration or demonstration of language, spoken or written, or of nonverbal abilities.

(ii) The condition manifests itself, when the child is provided with learning experiences appropriate for the child's age and ability level, as a severe discrepancy between achievement and intellectual ability in one or more of the following areas:

(A) Oral expression.

(B) Listening comprehension.

(C) Written expression.

(D) Basic reading skill.

(E) Reading comprehension.

(F) Mathematics calculation.

(G) Mathematics reasoning.

(iii) The term is not synonymous with underachievement. The term includes specific deficits in receptive and expressive language and deficiencies in initiating or sustaining attention, impulsivity, and other specific conceptual and thinking difficulties, such as nonverbal reasoning, integrating problems, motor coordination and social perception. Examples of the condition include minimal brain dysfunction, dyslexia and developmental aphasia, if the evaluation clearly indicates that the person can demonstrate normal or above normal intellectual functioning on an appropriate measure of intelligence. The term does not include learning conditions which are primarily the result of sensory impairment, physical disability, mental retardation, emotional factors or environmental, cultural or economic disadvantage. Determination of the learning disability shall include a full assessment and comprehensive report by a certified public school psychologist specifying the nature and degree of the disability. The multidisciplinary evaluation report shall include a statement of the relationship of the relevant behavior observed to the child's academic functioning, the educationally relevant medical findings, if any, and a statement of whether there is a severe discrepancy between achievement and ability which is not correctable without special education and related services.

Speech and language impairment--Impairments of language, voice, fluency or articulation that are not due to sensory impairment or developmental delay, but which are present to such a degree that academic achievement is affected and the condition is significantly handicapping to the affected person. Determination of speech and language impairment shall include the report of a certified speech clinician specifying the nature and degree of the impairment.

Level of intervention--As determined by the IEP team:

(1) Supportive intervention in the regular class: regular classroom instruction for the entire school day, with instructional support provided by special education personnel, including modifications to the regular instructional program and individualization of the exceptional student's instruction by the regular classroom teacher for part of the school day.

(2) Supplemental intervention in the regular classroom (itinerant): regular classroom instruction for most of the school day, with special education services and programs provided by special education personnel inside or outside of the regular class for part of the school day.

(3) Supplemental intervention in the resource classroom: regular classroom instruction for most of the school day, with special education services and programs provided by special education personnel in a resource classroom for part of the school day.

(4) Part-time special education class in the regular school: special education services and programs outside the regular classroom but in a regular school for most of the school day, with some instruction in the regular classroom for part of the school day.

(5) Full-time special education class in the regular school: special education services and programs outside of the regular classroom but in a regular school for the entire school day, with opportunities for participation in regular nonacademic or extra-curricular activities to the maximum extent appropriate.

(6) Full-time special education class outside of the regular school: special education services and programs outside of the regular school for the entire school day, with opportunities for participation in regular nonacademic or extra-curricular activities to the maximum extent appropriate.

Location of Intervention--As determined by the IEP team:

(1) Regular school which a student with levels of intensity described in subsection (b)(1)--(5) would attend if not exceptional.

(2) Alternate regular education school located within the student's school district, as close to the student's home as possible, for students with levels of intensity described in subsection (b) (3)--(5).

(3) Alternate regular education school located in a neighboring school district, within reasonable transportation distance and as close to the student's home as possible, for students with levels of intensity described in subsection (b) (4) and (5).

(4) Special education public school, such as a special education center, for students with levels of intensity described in subsection (b)(6).

(5) Approved private school on a day basis, for students with levels of intensity described in subsection (b) (6).

(6) Approved private school on a residential basis or other residential facility, for students with levels of intensity described in subsection (b)(6).

(7) An out-of-State placement, under §14.44 (relating to placement in out-of-State schools) for students with levels of intensity described in subsection (b)(6).

(8) Instruction in the home, for students with levels of intensity described in subsection (b)(6).

Total Public Enrollment--Total public enrollment of a school district was derived by combining data from different sources. School district and area vocational and technical school enrollment data from the "A Summary of Enrollments in Public Schools in Pennsylvania, 1991-92" published by the Bureau of Information Systems of Pennsylvania, Department of Education was combined with special education enrollments of intermediate unit operated programs as of December 1, 1991 from the PennData system database and special education enrollments of approved private schools from the Handicapped Child Tracking System.

Determination of Severity of Primary Exceptionality

The Table 12B is designed to assess the relationship of the proportion of students with severe disabilities in a school district's special education classes as compared to the total number of students in the school district. For the purposes of this comparison, students with severe disabilities for a school district includes students with severe disabilities, and whose parent or guardian resides in that school district, whether these students are enrolled in school district or intermediate unit operated classes.

The severity of a student's primary disability was determined by the student's exceptionality combined with the location of intervention. The total number of severe students for an exceptionality are the sum of the number of students for the exceptionality for the location of intervention as defined in the following table:

Exceptions to the above assessment are as follows:

Mental Retardation (MR): No. of "Severe" Students = [Total Public Enrollment] x (0.00174)

No. of "Mld" Students = (Total for MR) - (No. of "Severe" Student)

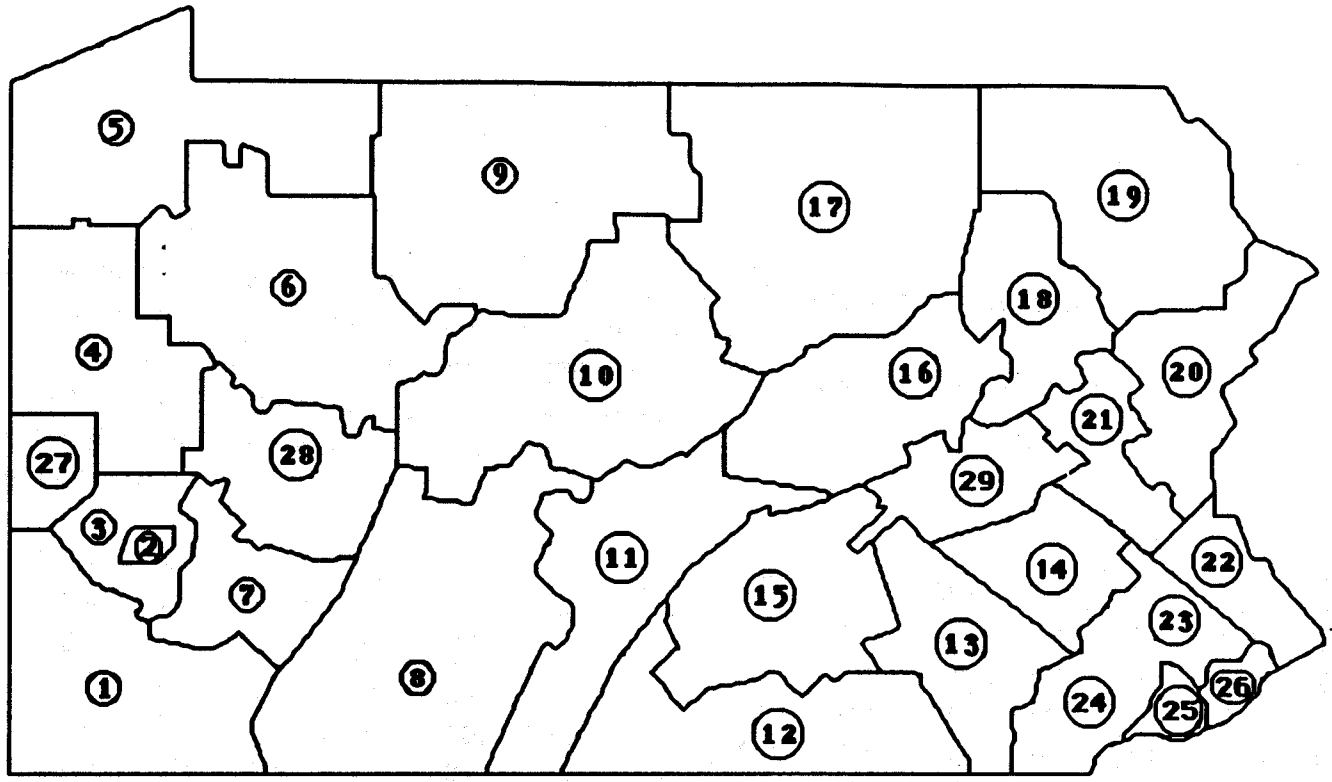

Speech Impaired (SI): No. of "Severe" Students = (Total for "Full Time" Regular SI students) + (Total for "Full Time" Non-Regular SI students)

No. of "Mld" Students = (Total for SI students) - (No. of "Severe" SI students)

Students whose primary exceptionality were identified as Mentally Gifted, Developmentally Delayed, or Detention Home were considered to be mildly exceptional.
