December 1 Child Count: General Information

Introduction

The Special Education Reporting and Verification System managed by the Pennsylvania State Data Center, Penn State Harrisburg, verifies and reports information about Special Education students. Information for the December 1 Child Count includes Child Count Data and Table 14 (Parentally Placed with an Equitable Participation Services Plan) for federal, state and public reporting. For the Child Count data, PIMS supplies the individual school age student records needed for reporting. OCDEL supplies the EI Preschool student records. The LEA, through the Intermediate Unit, supplies Table 14 data specified in this guide. The table is combined with the Child Count files and submitted to the Federal Department of Education. The Intermediate Unit works with the LEA to clean the data getting it ready for submission to PIMS, federal reporting and ad-hoc reports providing information to the Department of Education.

Submission of December 1 Child Count Data

The submission of the Child Count data starts when the LEA sends their Special Education Snapshot file and/or PIMS Student Template file to the Intermediate Unit (IU). The Intermediate Unit will upload the file(s) to the File Submission Website (<https://penndata.arl.psu.edu/upload/login>), where the Spot Checker will review the file(s) for errors. The errors are available for download by the user. The LEA should make corrections in the Special Education Snapshot file and/or the Student Template file. This process is repeated until the data is error-free.

When the data is error-free, preliminary Comparison Reports will be created to be sent to the LEA through the IU. The Comparison Reports show the LEA what data was submitted this year compared to last year by disability and educational environment. The LEA has the opportunity to review the Comparison Reports and correct any problems in their files. Once all issues are resolved, the LEA may upload the file(s) to PIMS. **Just a reminder, when all files are clean, PSU will identify possible duplicate student records across IUs and will send back a list of these students to relevant IUs via email. LEAs and Intermediate Units will determine if the child should be included in their file and make the appropriate change in their PIMS submission.**

EI Preschool data from PELICAN will be provided to PaSDC by OCDEL. The EI Preschool data will be combined with the school age data and PaSDC will identify possible duplicate records. **LEAs and Intermediate Units will need to work with OCDEL to determine if the child should be included in the school age or preschool submission and make appropriate changes to their PIMS submission.**

Final Comparison Reports are created once all files are uploaded to PIMS. The final Comparison Reports by LEA compare the data submitted this year to the data submitted last year by disability, race, gender, LEP, and educational environment. The LEA is responsible for ensuring the accuracy of the data. The LEA should work with the IU on any issues. The LEA must supply the IU with reasons for any changes. The LEA and the IU must verify that the data supplied is accurate.

The final data in PIMS is used for federal, state and public reporting. The data is also used to develop ad-hoc reports, providing information to the Department of Education throughout the year.

The December 1 Child Count consists of the following:

1. Only active students with a valid IEP on December 1, 2016.
2. All District of Residences which fall within the IU boundaries must report students or send a verification stating that there are no students with a valid IEP on December 1, 2016.

The December 1 Child Count Format is as follows:

1. Two comma delimited files:
 - a. Student Template in the same format as the PIMS file. (optional in Spot Checker)
 - b. Special Education Snapshot in the same format as the PIMS file.

Table 14 Submission

Table 14 is submitted by the IU via the Special Education Reporting and Verification System. **Table 14 is a list of students parentally placed with an equitable participation services plan as of 12/1/2016.** It is a required submission. The table should be uploaded to the File Submission Website (<https://penndata.arl.psu.edu/upload/login>), and processed through the Spot Checker to check for any errors. The errors are available for download by the user for correction and resubmission. This process is repeated until the data is error-free.

When the data is error-free, the IU will notify PSU that the table files are ready to be processed. Comparison Reports will be created to be sent to the IU. The Comparison Reports show the data submitted this year compared to last year by disability, gender, race, LEP and educational environment. The IU has the opportunity to review the Comparison Reports and correct any problems in the files. Once all issues are resolved, the IU uploads Table 14 into the Spot Checker again and notifies PSU. The IU must supply reasons for any flags and verify the data are accurate.

The table must meet the following criteria:

1. Comma delimited file, one file per IU.
2. An Excel template will be provided upon request. However, the file submitted **must be comma delimited.**

Transmission of December 1 Child Count Files

The IU may upload all files using the File Submission WebApp. Files that are not formatted in accordance with the correct specifications will be returned to the sender. Information on data type, type of file, total records, etc., will need to be entered when appropriate.

The IU can use the Spot Checker on the File Submission WebApp to run edit checks on their files.

Once a LEAs student data file is accepted as correct, the IU will notify PSU. The IU will verify the count in the files. PSU will provide a list of LEAs missing data.

Confidentiality

The PSU team assures that the information received via the IUs will be kept confidential.

Duplicate resolution

Intermediate Units and LEAs are responsible for resolving duplicate student records within their IU prior to submitting child count files. The LEAs and Intermediate Units will determine if the child should be included in the file.

When all files are clean, PSU will identify potential duplicate student records across IUs and send a list of such to relevant IUs via email. LEAs and IUs will determine if the child should be included in the file and make appropriate changes to the PIMS submission.

Timeline

The IUs and LEAs must follow the timeline in this manual. (Reminder: student data must be received by **12/12/2016** in order to receive a Preliminary Comparison Report.) **PSU encourages IUs to send files through the Spot Checker as early as possible so that all errors will be corrected by December 12, 2016 for the December 1 Child Count.**

Comparison Reports – December 1 Child Count

Once an LEA have been uploaded to the SpotChecker and processed without errors, the Preliminary Comparison Reports listed below will be sent to the IU for verification. Each report contains LEA summaries for the current year submission and the prior year submission, along with the difference and percent difference between the two years of data. The reports will help the IU/LEA detect data problems prior to their official PIMS submission.

Preliminary Comparison Reports:

1. School Age:
 - School Age Disability by SD
 - School Age Educational Environment by SD

Once all data issues are corrected and the files have been submitted to PIMS by the LEA, a full set of Comparison Reports will be run and sent to the IU. These Comparison Reports must be returned **with flag resolutions and/or reasons for data changes.**

Full Comparison Reports:

2. School Age:
 - School Age Disability by SD
 - School Age Educational Environment by SD
 - School Age Gender by SD
 - School Age LEP by SD
 - School Age Race by SD

3. Preschool:

- Preschool EI Disability by SD
- Preschool EI Educational Environment by SD
- Preschool EI Gender by SD
- Preschool EI LEP by SD
- Preschool EI Race by SD

3. Table 14 by IU

Sign off and Validation of Data

The IUs will ensure at the time of data submission that the Child Count file is true and accurate. Once all PIMS files are accepted as final and accurate, PSU will send the following reports to each IU for verification:

1. Verify 1 by IU and by LEA (3-21)

- Disability by Age
- Disability by Race
- Disability by Gender
- Disability by LEP

2. Verify 2 by IU and LEA (One Report per IU)

- Disability (School Age)

3. Verify 3 by IU and LEA (One Report per IU)

- Ages 3 – 6 (Preschool)

4. Verify 4 by IU and by LEA (School Age)

- Educational Environment by Disability
- Educational Environment by Race
- Educational Environment by Gender
- Educational Environment by LEP

5. Verify 5 by IU and by LEA (Preschool)

- Educational Environment by Disability
- Educational Environment by Race
- Educational Environment by Gender
- Educational Environment by LEP

6. Verify 6 Total Count By IU and LEA (One Report per IU)
 - Special Education Enrollment by Preschool, SA and Total
7. Verify Table 14 by IU and LEA (One Report per IU)
 - Parentally Placed with an Equitable Participation Service Plan by No Service Plan, Service Plan and Total Equitable Participation Students

Upon review of the data, a sign-off is required from all IUs. The IU Executive Director or his/her designee will need to sign the final sign-off. A sample Sign-off Sheet can be found in this manual.

Adhoc Reports

Adhoc reports may be requested of PSU by the Department of Education, Bureau of Special Education. All requests for reports must be submitted through BSE. PSU will complete the reports in a timely manner and send them to BSE. The reports will be in Excel format.

Data Assumptions

1. All students will be reported by the District of Residence.
2. All students enrolled in Charter Schools will be reported by the Charter School.
3. 1305 students in a foster home will be reported where the student resides with the foster parents.
4. 1306 students will be reported by the District of Residence

December 1 File Formatting Information

General Formatting Information for Export Files

All data export files must be in standard ASCII comma-separated variable (CSV) format, sometimes called “comma delimited text.” Each line must be terminated by a carriage return and line feed combination. Files should be named as indicated in this document, and must be in an MS-DOS compatible file format.

Table 14 is a count of the number of school age children with disabilities with an Equitable Participation Services Plan.

An example of **Table 14** is shown below:

Smith,Matthew,2008-012-02,,Lawer Christian, 119357402,2010-02-01,SD,2121,Y,N,5,M,99

The file will contain a row for each student. The row will contain 14 values, each separated by a comma (for a total of 13 commas per row). If there is not a value, a comma will indicate a value of ‘blank’. Dates should be formatted as YYYY-MM-DD.
