# July 2022 Submission: General Information

## Introduction

The Special Education Reporting and Verification System managed by the Pennsylvania State Data Center, Penn State Harrisburg, verifies and reports information on Special Education students. Information for the July submission includes: exiting student data, transition student data and table data for federal, state and public reporting. PIMS supplies the individual student records needed for reporting both exiting and transition. This data is used to create Exiting Tables 4-7 for submission to the Federal Department of Education and transition data for inter-agency use. The LEA's, through the Intermediate Units, supply the additional required supplemental tables specified in this Special Education Reporting and Verification Guide. These tables are also submitted to the Federal Department of Education.

## Submission of Student Data

The submission of the exiting and transition data starts when the LEA's send their PIMS Student file (optional in Spot Checker) and the Special Education Snapshot file to the Intermediate Units (IUs). This year the files should include all Special Education students 14 years of age or older by **July 1, 2021** and any other students with a transition plan as part of their IEP. Students that have exited should have exiting information in Fields 34 and 52. Students that have a transition plan should have transition data in 45 and 73-76.

The Intermediate Unit will upload the file(s) to the File Submission Website (<https://spotchecker.hbg.psu.edu/>), where the Spot Checker will review the file(s) for errors. The errors are available for download by the user. The LEA's should make corrections in their Student file (optional in Spot Checker) and the Special Education Snapshot file. This process is repeated until the data is error-free.

When the data is error-free, comparison reports for exiting students age 14-21 will be created to be sent to the LEA's through the IU. The comparison reports show the LEA what data was submitted this year compared to last year by disability, gender, race and LEP. The LEA has the opportunity to review the Comparison reports and correct any problems in their files. Once all issues are corrected, the LEA uploads the Special Ed Snapshot and the Student to PIMS.

Final comparison reports are created once all files are uploaded to PIMS. The LEA is responsible for ensuring the accuracy of the data. The LEAs should work with the IUs on any issues. The LEA's must supply the IU with reasons for any differences. The LEA and the IU must verify that the data supplied is accurate.

The student level files must meet the following criteria:

1. July submission should include all Special Education students 14 years of age or older by **July 1, 2021** and any student who has a transition plan as part of their IEP. If a student exits and returns prior to June 30, they would not be included.
2. Two comma delimited files:
  - a. Student file in the same format as the PIMS file. (optional in Spot Checker)
  - b. Special Education Snapshot in the same format as the PIMS file.

## Supplemental Tables Submission

The Special Education Reporting and Verification System collects the LEA's supplemental tables through the IU. Tables 1, 2, 3, 8A and 9A are required submissions. The tables will be uploaded to the File Submission Website (<https://spotchecker.hbg.psu.edu/>), and processed through

the Spot Checker to check for any errors. The errors are available for download by the user for correction and resubmission. This process is repeated until the data is error-free.

When each Table is error-free, the IU will submit and send notification through the Spot Checker.

The supplemental tables collected are:

1. Tables 1-3 - Includes the number of full-time equivalent personnel *employed or contracted* to work with children with disabilities, ages 3-21 by LEA, based on or around the December child count date.
2. Table 8A - the number of children with disabilities evaluated **July 1, 2021 through June 30, 2022**. (Does not include reevaluations).
3. Table 9A – the number of children with disabilities subject to disciplinary removal from **July 1, 2021 through June 30, 2022**. PSU will create Tables 9, 10, 11, and 12 from the student level data provided in Table 9A.
4. Table 13 will no longer be collected. Data for this table will be extracted from existing fields in the PIMS Safe School Collection. No additional data submission is required.

The tables must meet the following criteria:

1. Comma delimited text files. An Excel template which contains a tab for each table will be provided upon request. However, the file submitted must be a comma delimited text file (.CSV or .TXT).
2. Tables 1, 2 and 3: Tables must be submitted by IU.
3. Tables 8A, 9A: Tables may be submitted by IU or by LEA.

### **Transmission of Student Data and Supplemental Table Files**

Intermediate Units must upload all files using the File Submission WebApp (Spot Checker). Files that are not formatted in accordance with the correct specifications will be returned to the sender. Information on IU, data type, type of file, etc., will need to be entered when appropriate.

IU's can use the Spot Checker on the File Submission WebApp to run edit checks on their files.

Once an IU's table file or student data file is error-free and final, it should be submitted as final within the Spot Checker.

### **Confidentiality**

The PSU team assures that the information received from the IUs will be kept confidential.

### **Duplicate resolution**

Intermediate units and LEA's are responsible for resolving duplicate student records within their LEA before submitting student child count export files. The LEAs and Intermediate units will determine if the child should be included in the file.

### **Timeline**

The intermediate units shall follow the timeline in this manual. The Spot Checker will open in **early May** for all collections (Exiting, Discipline Table 9A and Personnel Tables 1, 2, and 3). **PSU encourages Intermediate Units to send files through the Spot Checker as early as possible so that all errors will be corrected by the final file for the July Submission.**

### Comparison Reports – July Submission

Once a file has been uploaded to the SpotChecker and processed without errors, the Preliminary Comparison Reports listed below can be downloaded from the Spot Checker for verification. Each report contains LEA summaries for the current year submission and the prior year submission, along with the difference and percent difference between the two years of data. The reports will help the IU/LEA detect data problems prior to their official PIMS submission.

Preliminary Comparison Reports:

1. School Age:
  - Exit Reason by Basis of Exit
  - Type of Discipline Removal

Once the data has been loaded to PIMS during the reporting period, PSU will receive the data through PDE and will create Preliminary Comparison Reports for each IU. These do not need to be returned with reasons.

When all data problems are corrected in PIMS by the LEA, Final Comparison Reports will be run and sent to the IU. These Comparison Reports must be returned **with reasons for the changes from current to previous year**.

Comparison Reports:

1. Exiting Tables 4-7:
  - Exit Reason by Basis of Exit
  - Exit Reason by Disability by SD
  - Exit Reason by Race by SD
  - Exit Reason by Gender by SD
  - Exit Reason by LEP by SD
2. Discipline Tables 9-12:
  - Type of Discipline Removal
  - Type of Discipline Removal by Disability by SD
  - Type of Discipline Removal by Race by SD
  - Type of Discipline Removal by Gender by SD
  - Type of Discipline Removal by LEP by SD
3. For each Aggregate Table 1-3

### Sign off and Validation of Data

The Intermediate Units will ensure at the time of data submission that the student datafile and the supplemental tables are true and accurate. For the student data file, the Intermediate Units will provide PSU with a count of the number of children contained in the file. Once all PIMS files and supplemental tables are accepted as correct, verification reports for Tables 1 through 12 will be sent.

Upon review of the data, a sign-off will be required from all IUs. The IU Director will need to sign the final sign-off. A sample Sign-off Sheet can be found in this manual.

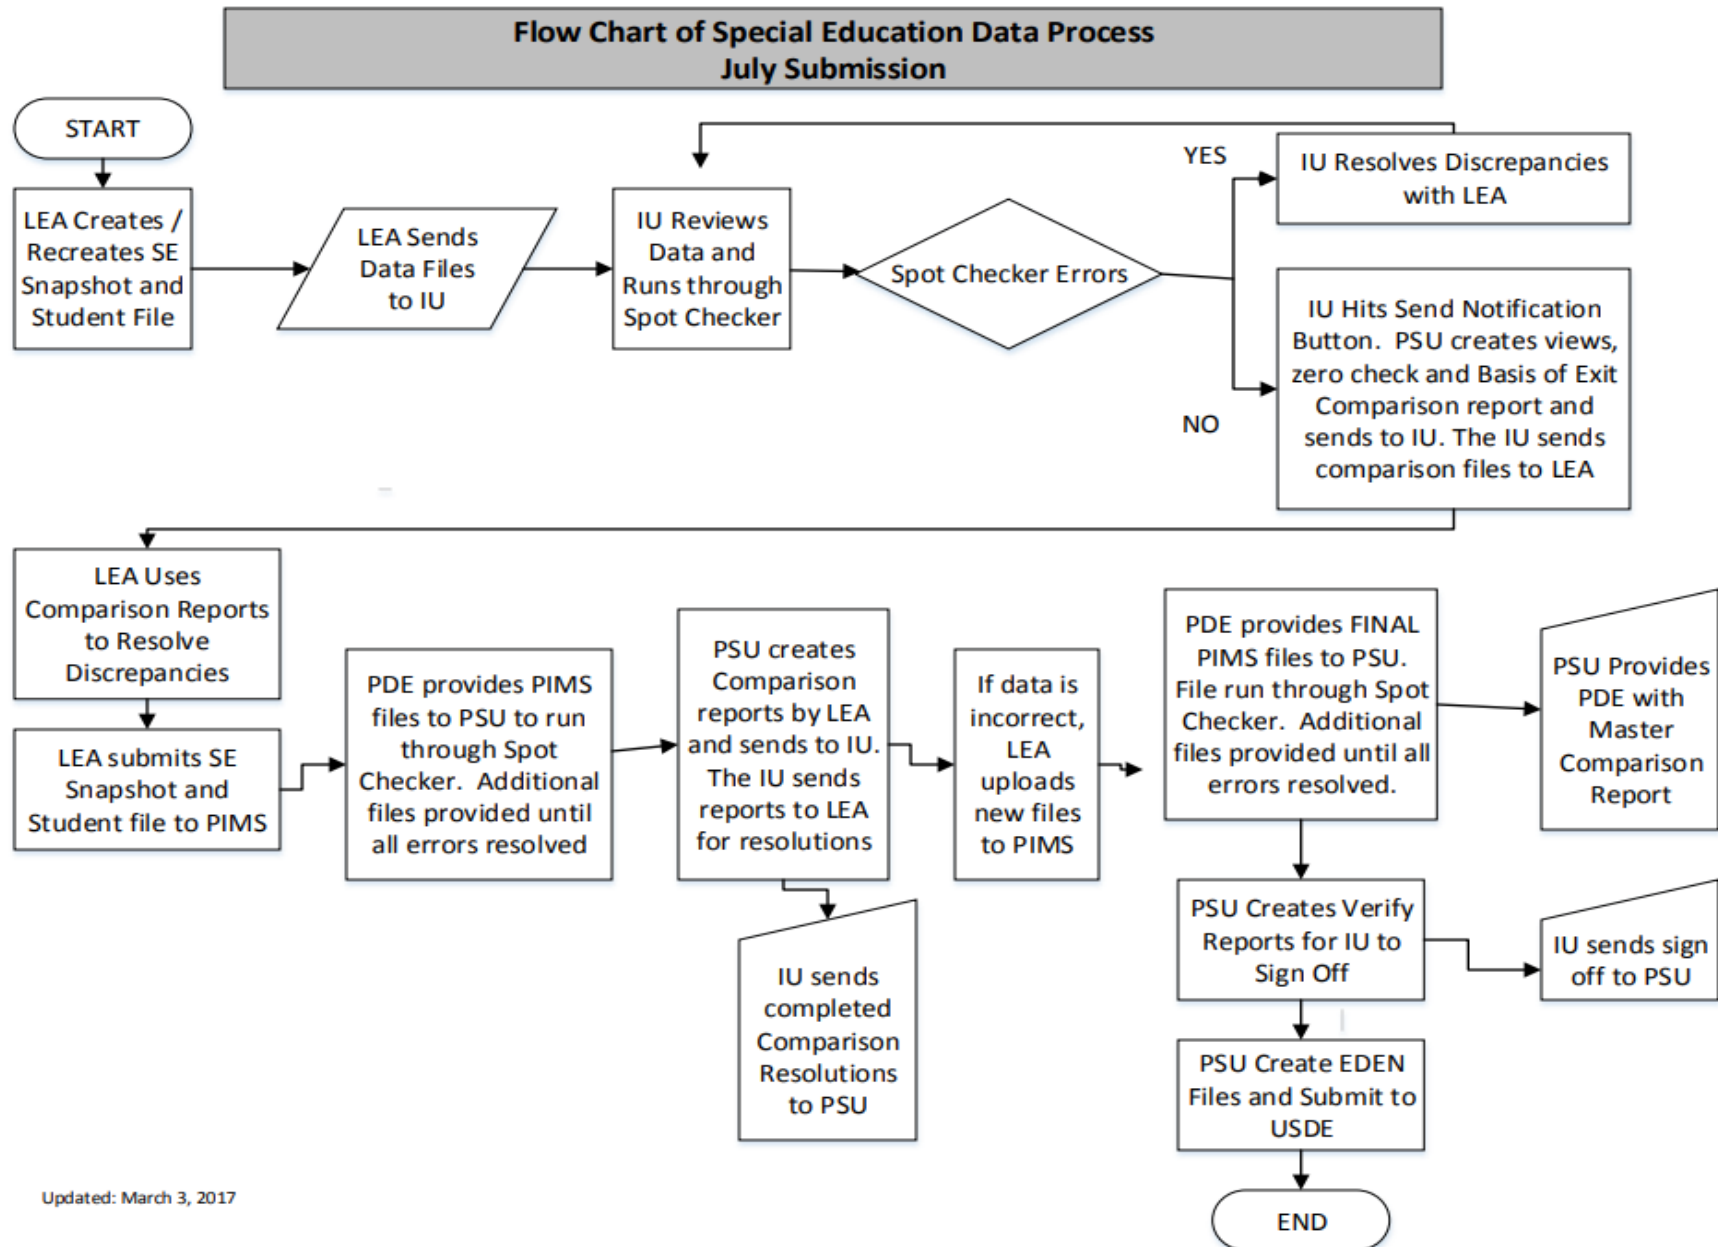

### **Adhoc Reports**

Adhoc reports may be requested of PSU by the Department of Education, Bureau of Special Education. All requests for reports must be submitted through BSE. PSU will complete the reports in a timely manner and send them to BSE. The reports will be in either Excel or Access format.

### **Data Assumptions**

1. All students enrolled in regular SD schools will be reported by the District of Residence.
2. All students enrolled in Charter Schools will be reported by the Charter School.
3. APS students will be included unless otherwise noted.
4. 1305 students in a foster home will be reported where the student resides with the foster parents.
5. 1306 students will be reported by the District of Residence

## Student Data

The two files, Student (optional in Spot Checker) and Special Education Snapshot, will contain a row of data for each student. ## INSTRUCTIONS FOR COMPLETING TABLE 9A

Table 9A is a required submission.

Reporting Special Education Discipline for 2021-2022 SY

### **If discipline incident occurred in current SY and LEA DID assign a disciplinary action – Sanction/Removal**

Report only sanction that was served (Ex. If 4 days OSS but 2 days were served, report 2 days)

If NO sanction/removal was served – Do not report the incident

### UNILATERAL REMOVAL to an INTERIM ALTERNATIVE EDUCATIONAL SETTING BY SCHOOL PERSONNEL:

Column 1A - Each child is counted ONLY 1 time no matter how many Unilateral Removals the student had for any of the reasons in column B, C, or D. Also Column 1A total must match on all 4 tables. The total for this column MUST be the same on all 4 tables.

Column 1B, 1C, 1D - The sum of these 3 columns will be equal to or greater than Column 1A. Example: A student was removed 3 times for serious bodily injury. The student will be counted 1 time in column 1A and 3 times in column 1D. The total for this column MUST be the same on all 4 tables.

### REMOVALS to an INTERIM ALTERNATIVE EDUCATIONAL SETTING BASED on a HEARING OFFICER DETERMINATION REGARDING LIKELY INJURY

Column 2 - The student MUST be removed based on a Hearing Officer Determination to be placed in this column. **The total for this column MUST be the same on all 4 tables. Report only Hearing Officers employed by Office for Dispute Resolution (ODR).**

### OUT-OF-SCHOOL SUSPENSIONS OR EXPULSIONS

Column 3A, 3B - Each child is counted ONLY 1 time no matter how many times the student was suspended or expelled. You must total the number of days the student was suspended or expelled and will count ONLY 1 time in column 3A if the total number of days is 10 days or less, or will count ONLY 1 time in column 3B if the total number of days is greater than 10 days. The total for columns 3A and 3B MUST be the same on all 4 tables. When calculating cumulative days of in- and out-of-school suspension, include **children who have cumulatively been suspended for** half a school day in length and longer. Do not include **children who have cumulatively been suspended for** less than half a school day.

A child should be counted in only one of the first three columns (1A, 2, or 3) for the same offense. If a child is unilaterally removed for drugs and reported in column 1A, then do NOT report the child again in column 3 for the same incident. Similarly, if a child is removed by a hearing officer for likely injury and is reported in column 2, then do NOT report the child again in column 3 for the same incident.

A child with more than one offense could be counted in more than one column (1A, 2, or 3). For example, a child who was unilaterally removed to an interim alternative educational setting and, later in the school year, was subject to an out-of-school suspension for more than 10 school days for a separate offense, should be reported in both column 1A and column 3.

### IN-SCHOOL SUSPENSIONS

Column 4C, 4D - Each child is counted ONLY 1 time no matter how many times the student was suspended in school. You must total the number of days the student was suspended in school and will count ONLY 1 time in column 4C if the total number of days is 10 days or less, or will count ONLY 1 time in column 4D if the total number of days is greater than 10 days. The total for columns 4C and 4D MUST be the same on all 4 tables. . When calculating cumulative days of in- and out-of-school suspension, include **children who have cumulatively been suspended for** half a school day in length and longer. Do not include **children who have cumulatively been suspended for** less than half a school day.

**NOTE: If a child has both in-school and out-of-school suspensions in the same school year, that same child can be reported in both column 3A or 3B and column 4A or 4B.**

#### DISCIPLINARY REMOVALS

Column 5A - This is the TOTAL number of removals.

Example: A student was suspended 3 different times for 5 days each. The student will be counted as 3 removals in column 5A and counted 1 time in column 5D because the total number of days was greater than 10.

Column 5B, 5C, 5D - Each child is counted ONLY 1 time no matter how many times the student was removed. You must total the number of days the student was removed and will count ONLY 1 time in column 5B if the total number of days is 1, or will count ONLY 1 time in column 5C if the total number of days is between 2 to 10 days, or will count ONLY 1 time in column 5D if the total number of days is greater than 10 days. The total for columns 5A, 5B, 5C, and 5D MUST be the same on all 4 tables.

\*Column 5 is a report of disciplinary removals. In column 5A, report the number of times any child with a disability was subject to any kind of disciplinary removal during the school year. When counting disciplinary removals, include in-school suspensions, out of-school suspensions, expulsions, removals by school personnel to an interim alternative educational setting for drug or weapon offenses or serious bodily injury, and removals by hearing officer for likely injury to self or others. Note that column 5A is a report of disciplinary events, NOT, children. If a child has more than one disciplinary removal in the school year, then each removal should be reported in column 5A.

#### **How are counts reported by removal length?**

The removal length is the cumulative length of removals during the school year.

A child with less than 0.5 cumulative days should not be reported.

A child with greater than or equal to 0.5 and less than 1.5 cumulative days should be counted in 5B

A child with greater than or equal to 1.5 and less than or equal to 10.0 cumulative days should be counted in 5C

A child with greater than 10.0 cumulative days should be counted in 5D

#### **How to report Multiple Disciplinary Actions for the Same Incident**

If a student receives multiple disciplinary actions for the same incident, only report the highest or more "severe" sanction.

Ex. Student receives 5 days of ISS and 5 days of OSS for the same infraction. Report ONLY the 5 days of OSS and report ONE removal.

This applies to both Table 9A and Safe Schools Reporting

#### COLUMN CHECKS

Columns 1A, 2, 3A, 3B, 4C, 4D, 5B, 5C, 5D must contain a Y or N for Yes or No

To be included in Table 9A, at least one of the Y/N columns must contain a Y

If sum of columns 1B, 1C, 1D > 0 then 1A must be Y

If 1A =Y, then the sum of 1B, 1C, 1D > 0

Only one of columns 3A and 3B may contain a Y

Only one of columns 4C and 4D may contain a Y
